### Transportation Security Officer Job Overview

Thank you for your interest in employment with the Transportation Security Administration (TSA). If you successfully complete the Transportation Security Officer (TSO) candidate evaluation process and are selected for a position, you will play a vital role in supporting the Department of Homeland Security (DHS) mission. This fact sheet highlights some of the unique operational requirements and compensation plan.

### Local Airport Details

Maintains a seven days per week flight schedule

Hours of operation are dependent on the airlines' flight departures

Days off and scheduled hours will vary

Screening operations are located inside the terminal and may or may not be temperature controlled.

### Work Schedules

TSO work schedules are based on the operational needs of the airport and may include non-traditional shifts, weekends and holidays.

Due to the nature of the job, virtually no flexibility is offered to accommodate personal commitments or schedules. TSA does allow one-way trades and shift trades under the Collective Bargaining Agreement.

Specific shifts are assigned after new hires successfully complete their training and are subject to periodic adjustments to meet changing operational needs. TSA employees are considered emergency personnel and are expected to report for duty during inclement weather regardless of state and local restrictions on travel.

AVP is currently assessing candidates for part-time positions. Shifts are based on airport operational needs.
