Transportation Security Officer Job Overview

Thank you for your interest in employment with the Transportation Security Administration (TSA). If you successfully complete the Transportation Security Officer (TSO) candidate evaluation process and are selected for a position, you will play a vital role in supporting the Department of Homeland Security (DHS) mission. This fact sheet highlights some of the unique operational requirements and compensation plan.

Local Airport Details

Maintains a 24 hour per day, 7 days per week flight schedule with peak times.

Work Schedules

TSO work schedules are based on the operational needs of the airport and may include non-traditional shifts, weekends and holidays.

Due to the nature of the job, virtually no flexibility is offered to accommodate personal commitments or schedules. TSA does allow one-way trades and shift trades under the Collective Bargaining Agreement.

Specific shifts are assigned after new hires successfully complete their training and are subject to periodic adjustments to meet changing operational needs. TSA employees are considered emergency personnel and are expected to report for duty during inclement weather regardless of state and local restrictions on travel.

STL is currently assessing candidates for part-time positions. Those shifts are: • 20 hrs. per week consisting of five (5) workdays per week with four (4) hour shifts per day during the morning, afternoon and late evening. Some split shifts required.
